

# Measles is more than a rash

**1 in 5 children** will require hospital treatment, and in very rare cases it can lead to death. Children need two doses of the MMR vaccine for best protection.

**To book an  
appointment  
contact your GP  
practice today.**

# 4 in 5 young children in Tower Hamlets have been protected from Measles with two doses of MMR

Is your child protected? The MMR vaccine is the safest and most effective way to protect children.

**Call your GP practice to check if they're up to date or book an appointment.**
